Subject: RE: Follow Up Allied Technical meeting.

All,

Due to the time required to prepare for this meeting and the strong possibility of a government shutdown, I am going to have to push back the date for the meeting. I will contact you all with an alternative date once those two issues have come into greater focus.

Thank you all,
Michael

Paul,

Thank you for suggesting that the EPA, MDEQ and the city of Kalamazoo reengage our discussion of groundwater at Allied Landfill and the surrounding area. EPA is interested in meeting with both the city of Kalamazoo and MDEQ so that we might confer on any unanswered groundwater concerns in and around Allied Landfill. It is my understanding that the intent of this meeting is to discuss the potential for the collection of groundwater samples at or around Allied Landfill. As EPA is the lead agency at Allied Landfill, any future groundwater sampling at Allied Landfill would be initiated by EPA. At this time, I do not believe that EPA will be adequately prepared to participate in such a discussion until the last week of October. Everyone, please let me know your availability for the week starting October 28th.

Thank you,
Michael

Subject: Follow Up Allied Technical meeting.

Mike,

I wanted to initiate scheduling the follow-up technical meeting to our 9/13 meeting. In checking dates on our end it looks like Thursday 10/3, Friday 10/4, Thursday 10/10, and Friday 10/11 show some promise. I'm sure schedules will get complicated quickly and can send out a Doodle Poll if it helps pick a date. Let me know how these dates look on your end.

Do you have an attendee list for your team and an idea about meeting location and how much time we will need? Please advise.

Paul
